AMADI-IKPA OBINICHI PRINCE

Port Harcourt, Nigeria.
+2349037223679
Obinichi2002@gmail.com

I am a fullstack web developer with at least 5 years of coding experience. I enjoy building web apps and this has been my drive to continuously improve and put in the level of effort I have, to understand what I currently know.

My major objective is to constantly build products that'll transform humanity at large, in one way or the other, with my development skills, while constantly improving in what I do.

I enjoy problem solving and I consider my self to be a go-getter.

I have a reasonable level of experience with the following technologies:

JavaScript, PHP, MYSQL, HTML, CSS, Apache.

I am conversant also with the following Libraries/Frameworks

ReactJS, ReduxJS, Web3Js, Bootstrap, W3SchoolsCSS, Wordpress, RellaxJS, Jquery.

Other Related Skills:

Web UI design with Figma, Graphics Design with Inkscape, Document Manipulation with WPS Office, Content Creation, Human Relations

My Top Personal Qualities:

- Hardworking- Always willing to put in the work
- Inquisitive- Inquisitive to understand how things function in general
- Planning- Explicit ability to design an order of action to achieve a certain goal

Experience

PHP Backend Developer- Schoolerrands.com -Contract
- ✓ Backend validation of Form data from the client-side and integration and structuring of the database for storing of information required for full functionality
- ✓ Working alongside with front-end developers
- ✓ Managing the entire production phase of the product
